

A SHREWD TRICK

Of the Ohio Democrats to Obscure the Tariff Issue.

A SILVER MANIFESTO IS ISSUED

By Chairman Thurman Which is Severely Censured by the Administration Officials at Washington. The Ohio Executive Committee Declares It Will Make the Fight on the Money Issue Alone.

COLUMBUS, O., Oct. 4.—The Democratic state executive committee to-day, of which A. W. Thurman is president and W. A. Taylor secretary, issued an address to the voters of Ohio to the effect that tariff reform has won, and that the money question is now the supreme issue before the country.

The address contains about 3,400 words, and is understood to have been prepared by Mr. Thurman. It says, among other things:

First—That money is the standard by which the exchangeable value of all labor and the product of the same are determined.

Second—That no money standard ever has nor ever can be a fixed and unvarying measure.

Third—Business men must remember that money may be appreciated in value as well as depreciated.

Fourth—That when it appreciates, prices fall. When it depreciates, prices rise.

Fifth—That the value of money itself is fixed by its exchangeable or purchasing power over other commodities, and this purchasing power of money is determined wholly and solely by the proportion that the quantity of money in circulation bears to other commodities.

Sixth—Now what is the demand for money? It is the demand of all things upon this one thing.

Seventh—Now what is the supply? The supply is the creation solely of the government, as nothing is money until the stamp of the government is placed upon it.

Eighth—Prior to the demonetization of silver in 1873, gold and silver was the standard money. Since then it has been gold.

Ninth—Affirms that of the eighth.

Tenth—That there has been no overproduction of silver; because, for four hundred years prior to 1873, the relative production of gold and silver was not quite 15 of silver to 1 of gold, and for the twenty years since 1873, it has not exceeded 16 to 1.

Eleventh—That the free coinage of silver does not mean any sudden inflation and sudden disturbance of value. This is so, because it is an utter impossibility to produce the precious metals faster than they can be absorbed for money purposes. The increase in population of the world during the last twenty-five years has been two hundred millions.

Twelfth—That the gold standard was imposed and continued to be imposed upon the people of the United States by England. In speaking of this, Senator Cameron, of Pennsylvania, said: "Yet the bankers of London have said that we must submit, and we have submitted."

Thirteenth—That there never has in the world been such a thing as international money and in all probability never will be.

Fourteenth—That there is not a single obligation of the United States government, other than old certificates, that is not, by the explicit terms of the contract, payable in either gold or silver; and we demand of the servants of the people that they administer the laws according to the terms of that contract. Who can say this is not right?

Fifteenth—That gold alone does not afford a sufficient basis.

Sixteenth—The advocates of the single gold standard claim that only gold can make an honest dollar. According to them, then, as we have shown that gold has continually appreciated in value for twenty years, a dollar is only honest when it is increasing in purchasing power.

Seventeenth—Again, the gold advocates say, that one dollar must be as good as another, but they do not define what "goodness" means. Is not a just dollar a good dollar? Is not a dollar of unchanging value a good dollar? Has the gold dollar been unchanging in value? In 1873, before silver was demonetized, this same gold dollar was worth 3 per cent less than the silver dollar; that same silver dollar will purchase just as much of every other commodity now as it would prior to 1873.

Eighteenth—Free coinage is not an experiment, but so far as the single gold standard has gone it has been a most disastrous one.

Nineteenth—With the dollar depreciating in value as it is now doing, thereby causing a decrease in the price of all products, taxpayers are compelled to give more labor or the products of more labor to obtain these dollars, the only thing with which they can discharge all state, county and municipal taxes, all of which are fixed charges. Therefore, to decrease the price of products is to increase taxes.

Twentieth—Continued falling prices must annihilate profits, without which all industry must be paralyzed; causes money to accumulate in money circles where it is principally used by those who gamble in securities, instead of being used in productive enterprises.

Twenty-first—If business men could only be assured that prices had once touched bottom, and that even as low as they are now, they would remain steady and stable in the future, then it might be possible for them to conduct their business upon a stable footing, for after a general readjustment, matters would go along as usual. This, though, can only be done upon condition that prices have reached their lowest level and can be counted upon to remain steady in the future. If the conditions, though, remain as they are, not only ask yourselves when the decline will stop, but how, if money keeps thus appreciating in value, is it possible for it to stop.

If this policy is not changed, we do not for one moment hesitate to absolutely affirm that no matter whether we have high tariff, low tariff, or no tariff laws at all, there can be no permanent revival in business affairs. Stocks of all kinds are now so low that we may expect some commercial improvement, but that it can last for any length of time, if the present monetary conditions are maintained, is an absolute impossibility.

RECEIVED COLDLY

By the Administration, While Some Demosnate It—Will Defeat the Party.

WASHINGTON, Oct. 4.—The address to the voters of Ohio, issued by the state executive committee, was received by some treasury officials with indifference, while others criticized it severely. None of them, however, would talk for publication. It can safely be

said, though, that the views of Mr. Thurman and his colleagues are not shared by any of the administration people here, either as to the tariff or the money question. The passage of the tariff act is regarded as a long step in the right direction, but, as Mr. Cleveland has stated, does not end the fight for free raw materials, though some of the more conservative of the administration contend that the present act, after some of its inconsistencies have been corrected and its sharp corners smoothed off should be accepted, for the present at least.

The free coinage doctrine of the committee's address meets with nothing but opposition and censure from administration officials. The arguments are characterized as exceptionally weak and the fear is expressed that Mr. Thurman has imbibed some of what are characterized the mistaken financial theories of his illustrious father.

The administration men here strongly contend that the further agitation of the silver question at this time can result only in impeding the progress of the great business revival which is now setting in, and to make it a national political issue would be nothing less than a crime. They favor an ignoring of the silver question in the hope that the agitation will cease.

THAT WAR SCARE

It Fizzes Out—Not the Slightest Cause for Anxiety.

LONDON, Oct. 4.—The English newspapers have apparently recovered from the bad scare caused some of them by the hasty calling of a cabinet council. Yesterday the afternoon papers were seriously apprehensive of war with France. Now they are unanimous in expressing the opinion that there is not the slightest of anxiety as to a serious dispute with France, and it seems to be admitted that the cabinet council which meets to-day will not be called upon to decide anything more serious than the protection of British interests in China.

It seems generally agreed, however, that the cabinet council will decide the question as to whether or not British troops are to be sent immediately to the treaty ports of China.

NOT A PITCHED BATTLE

The Conflict at Ping Yang—The Chinese Fought Against Overwhelming Odds.

LONDON, Oct. 4.—A dispatch to the Times from Shanghai to-day says that according to Chinese reports no pitched battle was fought at Ping Yang, Korea. The Chinese there, according to these reports, only numbered 12,000 men and they were greatly outnumbered by the Japanese troops. The Chinese general, Yeh, it is also said, was prostrated with dysentery and withdrew his whole force. Gen. Wei, the Chinese said, did the same, leaving only Gen. Yeh's force of 2,300 men to fight against overwhelming odds until all were killed with the exception of 600 who were taken prisoners.

Nothing is known at Shanghai in regard to the reported insurrections and mutinies on the part of Chinese troops.

To Protect British Interests.

LONDON, Oct. 4.—It is announced upon authority that the cabinet council, after discussing the state of affairs in China, decided to send troops to that country in order to protect British interests. It is also probable that additional ships will be sent to strengthen the fleet in Chinese waters under the command of Admiral Framantle.

It is also said that in consequence of to-day's meeting of the cabinet the British legation at Peking will shortly be guarded by British blue jackets and native Indian soldiers.

Want a Man of "Quality."

WASHINGTON, D. C., Oct. 4.—Up to this time applications for appointment to the office of the supervising architect of the treasury have been made as follows: W. M. Poindexter, of Washington, D. C.; Frank F. Carowell, of Wilmington, Del.; Frank M. Howe, of Kansas City, Mo.; Glen Brown, of Alexandria, Va.

It is understood that no appointment will be made until the President and Secretary Carlisle have had further time in which to ascertain the qualifications of candidates and others.

It is said to be their purpose to select a man of the very highest qualifications. All other considerations will be only secondary.

Big Loss to Illinois Democrats.

CHICAGO, Oct. 4.—Gen. F. H. Winston, minister to Parana during President Cleveland's first administration, and at present a park commissioner under Governor Altgeld, announces that he will not support the Democratic congressional election. Upon the success of the legislative ticket depends the outcome of Franklin McVeagh's candidacy for the United States senate. General Winston says: "I am opposed to the further agitation of the tariff question by Congress, and I am bitterly hostile to the legislation already adopted, especially the income tax law."

Trumbull Becomes a Populist.

CHICAGO, Oct. 4.—It is announced that Judge Lyman Trumbull is in sympathy with the Populist party, and will deliver an address at one of its mass meetings in Central Music Hall next Saturday night. He will address the Populists on "The Rights of Man as Affected by Accumulated Wealth and Favored Monopolies." Judge Trumbull has long been regarded as a staunch Democrat.

Tired, Weak, Nervous,

means impure blood, and overwork or too much strain on brain and body. The only way to cure is to feed the nerves on pure blood. Thousands of people certify that the best blood purifier, the best nerve tonic and strength builder is Hood's Sarsaparilla. What it has done for others it will also do for you—Hood's Cure.

Hood's PILLS cure constipation by restoring peristaltic action of the alimentary canal.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamberlain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia, a quicked severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine has to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should require immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or two. A lame back may be cured and several days of valuable time saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it.

GEORGIA ELECTION.

The Democratic Candidate for Governor Runs Behind the Ticket.

ATLANTA, GA., Oct. 4.—Returns come in slowly, but enough official and unofficial reports have been received by the Atlanta Journal up to 12 o'clock to indicate an average Democratic majority of from 20,000 to 25,000. Atkinson, the Democratic nominee for governor, has been scratched in all parts of the state, and it is believed his majority will not exceed 15,000. The Democrats will have 30 majority in state senate and 150 majority in the house. Every congressional district, except Black's, the Tenth or Watson district, went for the Democrats. The Ninth, represented by Tate, is carried for the Democrats by 7 majority, and the Fourth, represented by Moses, by 900. This is the first election since the war, when Republicans and Populists have made complete fusion. The negroes voted solidly with the Populists. A great surprise has been the defeat of Warner Hill, a prominent candidate for speaker of the next house. His county went with the Populists. This insures the election of W. H. Fleming, of Richmond as speaker.

South Georgia counties, which are solid for Representative Tamer for senator, have given the largest majorities in the state to the Democrats.

DON'T AGREE

The Officers of the Lahn Tell a Different Story of the Collision.

NEW YORK, Oct. 4.—The North German Lloyd steamship Lahn, which sailed from Bremen on September 25, and came into collision with the Italian schooner Magliola on the night after sailing, reached her dock in Hoboken to-day. According to the cable dispatches received here the day after the accident, it was stated that the captain of the schooner, which became waterlogged and was abandoned, blamed the Lahn for the accident, and a complaint was lodged in Southampton, where the crew of the deserted schooner was landed after being picked up by the Lahn. The officers of the Lahn, however, tell a different story, and all who were on deck at the time of the collision agree that the accident was due to the fact that no lights were shown aboard the schooner.

Republican College League.

NEW YORK, Oct. 4.—The national executive committee of the American Republican College League, to-day decided to hold the next annual convention of the league at Grand Rapids, Mich., on Friday, April 5, 1895. Among those expected to speak on the occasion are Benjamin Harrison, William McKinley, Jr., Thomas B. Reed, Julius C. Burrows and Chauncey M. Depew.

Common Sense

Is a somewhat rare possession. Show that you have a share of it by refraining from violent purgatives and drastic cathartics when you are constipated, and by relaxing your bowels gently, not violently, with Hostetter's Stomach Bitters, a wholesome, thorough aperient and tonic. This world famous medicine cures dyspepsia, malaria, liver complaint, kidney and bladder trouble and nervousness, and is admirably adapted for the feeble and convalescent.

Baltimore & Ohio Special Excursion to the Pittsburgh Exposition.

September 27, October 4 and 9, 1894, the Baltimore & Ohio will sell excursion tickets to Pittsburgh at \$2.00 for the round trip, which includes one admission to the Exposition.

Tickets good returning two days from date of sale.

"This Picture and that"

For a long time Mr. John Barbee, of 117 Main St., Durham, N. C. was a victim to Dyspepsia. He was advised to take

Brown's Iron Bitters.

On July 10, 1894, he wrote a grateful letter in which he said:

"I have used BROWN'S IRON BITTERS for two months for Dyspepsia and it has cured me."

He does not mind it's being known—perhaps his letter may help YOU to a cure! This remedy has helped thousands during the past 20 yrs. Will you try it? It does not constipate and it WON'T INJURE THE TEETH.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Excursion No. 27

Conducted by our great Pictographic Portfolio

Glimpses
of
America

are through Canada and the New England States. The trip is to Ottawa, Canada, for a view of Chaudiere Falls as they appear when the crown of the ice-king is upon them, then through Lachine Rapids and on to Montreal to participate in the Winter Carnival which is held there. Thence we journey to Quebec and take a glance at its heights and battle grounds, then speed away to Montmorency Falls, Lake St. John, and the river of Death, through a region of great scenic beauty. Our trip is thereafter southward to the Green Mountains of Vermont, by lakes, rivers, falls, farm-lands, villages, and thence on into the heart of the White Mountains. Here curiosity, awe, grandeur and beauty are in company joining hands and holding a wondrous region in their embrace; we travel to the summit of Mount Washington and look away to the sea, and around upon an army of mountains seared with vast chasms; garlanded with heavy forests, silvered with running streams, jeweled with sapphire lakes, wonder breaking upon wonder,

A Panorama
Glorious to Behold.

From the White Mountains our tour is to Maine, and thence to Boston and down the Old Colony Road by Woodworth's Home, where he wrote "The Old Oaken Bucket," and Daniel Webster's Farm, to the seaside haunts of Massachusetts and Rhode Island. We visit Plymouth also, where the Pilgrim Fathers anchored, view the monumental spots where they lie, repeat the old stories and enjoy a review of the historic associations of places and individuals which distinguished New England annals.
